ABOUT ME

Data Analyst & Full Stack Developer with 3 years of experience in data analytics and 1 year in full-stack development. Skilled in collecting, processing, and analyzing data to drive informed decisions, using tools like SQL, Python, Power BI, Tableau, and Excel. Experienced in end-to-end software development with .NET Core, React, Azure Database, and MySQL — from documentation and coding to QA testing, deployment, and user training. Passionate about leveraging data and technology to enhance business performance and deliver impactful solutions.
